## THE GREAT LAKES CARRIAGE CLASSIC 2019

Dear Exhibitors and Friends:

Tri-County Carriage Association and the Great Lakes Carriage Classic (GLCC) Show Committee welcome you to the Third Annual Great Lakes Carriage Classic. This year's show is being held August 23 to 25 at the Ancaster Fair Grounds offering expanded facilities including three large out door rings, an indoor arena, indoor stabling for 116 horses and a large area for the pleasure obstacle course. RV hookups are on site with a variety of nearby restaurants, shops, golf courses and hotels. The site is conveniently located just off Highway 403 and an hour & a quarter from the Lewiston Bridge.

The objective for this show is to provide a diverse range of driving enthusiasts with a Canadian experience to show their equine partners and advance their driving skills. Welcoming to new and experienced competitors this show offers something for everyone.

- Ten divisions
- Five classes within each division
- Juniors and Para-Drivers continue to be an emphasis at the show
- Red Light / Green Light Class introduces youth to carriage driving
- Featured breed of 2019 is the Norwegian Fjord
- New trophy this year is for the GLCC High Point Friesian

The show administrators are pleased to welcome back Kali Knickerbocker Mahler as the Technical Delegate and benefit greatly from her expertise. The 2019 CDE Judge is Minta Winn from Great Britain and the Pleasure Judge is Karen Homer Brown from Kentucky.

The Ancaster Fairgrounds is a fully accessible site. The hospitality committee has arranged social activities for competitors including a welcome reception, a ticketed sit down dinner and an awards luncheon. A food truck will be on site from early morning to late afternoon during the show.

The club will continue to educate spectators about carriage driving with the Featured Breed, the Carriage Parade and ongoing descriptions of classes by announcer, Brian Errico.

TCCA expresses its appreciation to supporters in making the club's events and this, the GLCC show possible. Volunteers and spectators are welcome to participate in and enjoy the activities while gaining a better understanding of the historical sport of carriage driving.

Sincerely,

Jean McLean,

## ABOUT TCCA

In 1983 Tri-County Carriage Association (TCCA) was formed by a group of gentleman living in Southwestern Ontario that shared a love of carriage driving. Their contributions set a foundation for others to build and expand on this historical sport ensuring its future for all to take part in.

Throughout each year, the club delivers education seminars & driving clinics that are open to all drivers as well as encouraging beginners, youth and para to participate. Events include the Great Lakes Carriage Class (a 3-day show) and a one day show in the fall. Urban Elevators donated the first Para Division trophy at the 2018 GLCC event.

The Social Committee plans and offers Social Drives at various members' facilities giving all interested parties an opportunity to take part in non-competitive carriage outings. Participants contribute and share information & skills along with an impromptu pot luck lunch with time to share stories. A good time by all.

Membership is required to participate in TCCA activities. The form can be found on the website with the annual waiver that when signed and submitted covers the calendar year of membership. ([www.tricountycarriage.com](http://www.tricountycarriage.com))

Coach House Talks is an online communication feature designed to provide an opportunity for members to contribute and share information.

Each year is closed with the Annual General Meeting with a potluck meal, yearend awards, interesting speakers and a review of past and upcoming events.

**The Board of Tri-County Carriage Association  
appreciates your continued support.**

## DESCRIPTION of GAITS

### **WALK**

A free, regular and unconstrained walk of moderate extension is ideal. The animal should walk energetically but calmly with even and determined steps; 4 beat gait.

### **SLOW TROT**

A slow, balanced trot on a lighter rein, where the animal's step is shorter and lighter than in faster gaits. Animal should show willingness to be driven on the bit while maintaining a steady cadence.

### **WORKING TROT**

Pace between slow and strong trot, animal more rounded than in a strong trot. Animals go forward freely and straight while remaining balanced and unconstrained on a taut but light rein. Steps as even as possible with the hind feet touching the ground in foot prints of the fore feet. Gait shows animals' suppleness and balance.

### **STRONG TROT**

Clear but not excessive increase in speed with lengthening of stride and maintenance of balance. Light contact with lateral flexion on turns should occur. Excessive speed is penalized. Call for gait is "TROT ON".

### **HALT**

Turnout brought to a complete square stop without veering or abruptness. At halt the animal is to remain attentive, motionless and straight with weight evenly on all four legs.

### **REIN BACK**

Backward movement where legs raised and set down simultaneously in diagonal pairs with hind legs in line. Back at least four steps with quiet aids, head flexed and straight, pushing back in a straight line. After back the animal will then move forward willingly to the former position and perform a halt.

The judges will assess: vehicle, harness, appointments, equine, driver, passenger, groom etc., but the most important is the overall impression. Period costumes are definitely prohibited. Performance is not judged unless it detracts from the elegance of the turnout. Ribbon and award to recipient.

### **Red Light / Green Light**

## THE GREAT LAKES CARRIAGE CLASSIC 2019

### DEFINITIONS

|               |   |
|---------------|---|
| Apron         | A cloth worn to keep the wearer clean, dry & warm while driving   |
| Blinkers      | Leather covered metal plates attached to the cheek pieces of the bridle to prevent the horse from seeing behind. Also known as blinders and in England as winkers, they can be one of several shapes, but as with other pieces of harness must fit properly |
| Box           | The seat from which the driving is done   |
| Breeching     | The harness by which the horse holds back the vehicle when there is no brake  |
| Cart          | Generally named after the region from which it came, or the builder, or the purpose it is used for. They can be either two-wheeled or four-wheeled, however they are always open and simpler than the open carriages  |
| Collar        | The padded harness that goes around the horse's neck accommodating the harness to which the traces are attached   |
| Crupper       | The harness piece that secures the saddle pad from the rear. The dock (tail) piece runs under the tail and attaches to the saddle through the back-strap  |
| Cut under     | A type of vehicle construction allowing an arch into which the wheels can turn  |
| Driving reins | The reins used by the driver to direct the horse or team. Russet leather is preferable as the dye from black reins would come off on hands and gloves   |
| Four-in-hand  | A popular term for a four horse team  |
| Gig           | A light, rather elegant two-wheeler with a forward facing seat generally for two occupants  |
| Hames         | The metal arms fitted to the horse's collar   |
| Leader(s)     | The two forward horses in a team, the near-leader being the left hand horse & the off-leader being the right hand horse   |
| Liverpool bit | A curb bit with five degrees of severity, the Liverpool is one of the most popular pleasure driving bits  |
| Long lining   | A training exercise to help prepare the horse to be directed by reining from the rear rather than by the usual more immediate reins used for riding   |
| Phaeton       | A now almost all encompassing term covering a wide range of four-wheeled open carriages designed to be driven from a forward seat. At one time phaetons were in almost every size, shape and function   |

### DEFINITIONS (continued)

|                              |   |
|------------------------------|---|
| <b>Pole</b>                  | A wooden pole with metal fittings to which the horses for pair driving are hitched on either side. It is through the pole that the vehicle is steered and braked if no other brake is available   |
| <b>Presentation</b>          | Judged at the halt or on the move in the driving area. Points awarded based on the driver, grooms, horse(s), the vehicle and general appearance.  |
| <b>Putting to Shaft(s)</b>   | Attaching the harnessed horse(s) to the vehicle<br>The two longitudinal timbers between which the single harness horse is harnessed. With the two-wheeled vehicle the shafts provide both the balance and the steering. With four-wheeled vehicles and sleighs the shafts prevent the vehicle from running up on the horse and also aid in steering |
| <b>Single or wiffle tree</b> | The bar sometimes used to transmit the pull from the traces to the vehicle  |
| <b>Sulky</b>                 | A low single vehicle built of steel with pneumatic tires used for trotting and pacing races. Sulky's were once built on a high frame work above large wheels. It is said this was due to the solitary perch of the driver   |
| <b>Surrey</b>                | A four-wheeled vehicle with two identical forward facing seats placed one behind another in a shallow box shaped body. Some surreys feature a fringed canopy and others have a fold back top  |
| <b>Tandem</b>                | Two horses harnessed one in front of the other with the rear horse(wheeler) to the shafts and the leader harnessed in front of him  |
| <b>Trap</b>                  | A vehicle that features a divided front seat that could be folded forward to allow access to the rear seat  |
| <b>Tug(s)</b>                | A strong buckle-topped oval-shaped band made of two or three layers of stitched leather through which the shafts on the single horse harness pass. The tugs keep the vehicle from tipping up or down once the bellyband is fastened   |
| <b>Unicorn</b>               | A team of three made up of two wheelers and a leader  |
| <b>Wheeler</b>               | One of the pair nearest the vehicle when a four-in-hand is driven   |
| <b>Whip</b>                  | The hand held aid used by the driver to create the necessary impulsion. Whips vary in length and type depending on the purpose they will be put to and the vehicle being driven   |
| <b>Whip</b>                  | The person who drives the vehicle   |
